## U.S., Canada at Odds Over Atom Defenses

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The United States, apparently taking sharp issue with Canadian Prime Minister John G. Diefenbaker, has declared bluntly that Canada's defense forces should be equipped with nuclear weapons.

Although North American defense systems "using nuclear capable weapons" are necessary for effective protection against the Soviet Union's nuclear bomber fleet, the State Department said Wednesday night, the Canadian government has failed to come up with a practical plan.

The nuclear weapons issue has been hotly debated in the Parliament at Ottawa in recent days and has become a problem in Canadian domestic politics. In such circumstances a U.S. government declaration is highly unusual. In Ottawa, there was widespread speculation the U.S. criticism would spark a general election call and a campaign fought on nuclear defense issues.

The statement, issued by the State Department and delivered to the Canadian Embassy, is also unusual because it is stripped of ordinary diplomatic language and lays down the Washington view of the North American defense problem in sharp, simple sentences.

"The Soviet bomber fleet will remain at least throughout this decade a significant element in the Soviet strike force," the statement said. "An effective continental defense against this common threat is necessary."

The statement said that although the Western alliance needs more conventional forces, conventional forces are no alternative "to effective NATO or NORAD defense arrangements using nuclear-capable weapons systems." NORAD is the joint U.S.-Canadian defense system against Soviet bombers.

The statement did not refer to Diefenbaker by name, but referred to various points made in the Canadian Parliament's nuclear weapons debate, in which Diefenbaker has participated.

In Ottawa, the Social Credit Party leader, Robert Thompson, called the U.S. statement "a bombshell to say the least — it could be the spark to topple to government."

Liberal leader Lester B. Pearson, leader of the Liberals, the highest opposition party, said he found it surprising the United States should issue such a statement.

**RIGHT AT HOME** — An ice cube sign at a service station in Oberlin, Ohio, left over from the summer, seems right at home among piles of snow pushed up by plows clearing the streets after three days of snowfall and near zero temperatures.

**BATTLE OF WILLS** — It doesn't look like it's even a contest, but this plucky Chihuahua made up his mind not to move and no donkey could have been more stubborn. Finally, 10-year-old Lorraine Storz's efforts prevailed and "Chiquita" participated in the New York Children's Aid Society Common Dog Show. There was no report on how Chiquita placed.

## State Motion Picture at the Saenger

The state-produced motion picture "Wonders of Arkansas" will be on the screen of the Saenger theater this Sunday and Monday, Feb. 3-4.

The two-reel color film tours some of the better-known spots of Arkansas, including its marvelous waterways, the resort city of Hot Springs, the three capitals of Little Rock, and the legendary court of Hanguin Judge Parker in Fort Smith.

The film is narrated by Jackson Becki, and you travel down a romantic waterway to the songs of Bill Hayes and the music of Ray Ellis' Orchestra.

## Negro Charged in Burglary Here

City Police Chief Jack Brown today reported the arrest yesterday of Charles Edward Stewart, 25, Negro, in connection with the burglary of Hall's Grocery Tuesday night.

Mr. Brown said the burglar took cigarettes, tobacco and about \$1.03 in money. Stewart was charged with burglary and released to the county for prosecution.

## Final Rites for Lewis Townsend Today at Emmet

Funeral services for Lewis Townsend, aged 65, a resident of Emmet who died Tuesday at Lewisville, were to be held at 2 p. m. today at the Emmet Methodist Church. He was a retired farmer, a native of Emmet and a Presbyterian. Burial was to be in Shell Cemetery at Emmet.

Survivors include his wife, Mrs. Gladys Cox Townsend, two daughters, Mrs. Joe Johnson Jr. of St. Louis and Mrs. Mrs. W. R. Beatty of Lewisville; four brothers, Otis Townsend of Emmet, Sam Townsend of Rodessa, La., George Townsend of Texarkana and Phineas Townsend of Ardmore, Okla.

## Wants River Toll Charges Removed

LITTLE ROCK (AP) — Phillips County Rep. Jim Linder introduced in the Arkansas House Wednesday a resolution asking that a committee be appointed to study feasibility of removing toll charges on the Mississippi River Bridge at Helena.

Linder said he believed charges on use of the bridge, which was opened in July 1961, were "an undue burden on the citizens of this state and on tourists."

The study committee would include the governor, the president pro tem of the state Senate, the speaker of the House, the chairman of the state Highway Commission, the chairman of the Legislative Council, the executive secretary of the Arkansas Automobile Association and the president of the Arkansas Bus and Truck Association.

The group would submit its findings to the General Assembly, Linder said.

A Highway Department spokesman said the tolls go to retire bonds and that the bridge was slated to become debt free when the bonds were paid off about 1976.

## Thinks Co-op Plants Are Too Small

LITTLE ROCK (AP) — Arkansas Power & Light Co. contends that generating stations of the rural electric co-operatives are too small to be efficient.

But the co-ops say power transmitted from their Augusta plant over AP&L lines would save the co-ops \$10 million.

Reveries Ritchie, president of AP&L, told legislators Tuesday at a dinner that construction of electric generating plants by the co-ops is wasteful duplication and should be avoided.

## 2nd Negro May Enter Ole Miss

By BEN THOMAS

OXFORD, Miss. (AP) — James H. Meredith returned to the University of Mississippi campus today, checked in at his dormitory, and then headed for the area where second-semester registration was under way.

Two Justice Department men accompanied him.

Meredith made his return amid reports another Negro will attempt to enroll.

The university—still mindful of the disorder last fall following Meredith's arrival—made elaborate security precautions to prevent fresh disturbances.

Troublemakers "will receive swift and severe disciplinary action," Chancellor John D. Williams warned in a letter delivered to each student.

It was learned that Dewey Roosevelt Greene, 22-year-old Greenwood Negro and former student at Mississippi Vocational College, would arrive on campus in mid-morning and attempt to register.

Reliable sources said Greene would be accompanied by an attorney. The university once, rejected Greene's bid to become the second Negro known to attend the university on grounds he was not academically qualified.

Meredith announced at Jackson Wednesday that he would register for the second semester—as J. H. Meredith, he said, not as a Negro.

"The prospects for him (the Negro) are too unpromising," Meredith said in a prepared statement read to a news conference.

## The Gloomy Weather to Continue

By THE ASSOCIATED PRESS

Cloudy skies and sub-freezing temperatures dominated the Arkansas weather picture this morning, and the gloomy weather was expected to be interspersed with occasional periods of drizzle through Friday.

Light drizzle was reported this morning in the southern portion of the state, but most of the precipitation during the 24-hour period ending today at 6 a. m. was recorded Wednesday.

Overnight lows today were generally in the mid 20s to the low 30s, but Texarkana reported a 38 and El Dorado had a 36.

High temperatures today were expected to be in the low 30s north to the low 40s south. Lows of 26 to 30 north and in the mid 30s south were forecast for tonight.

Slightly warmer weather was predicted for Friday.

State Police said some ice still was reported on a few highways in the northern portion of the state today, but said roads were generally clear over the rest of the state.

Some of the schools closed Wednesday because of the icy weather were re-opened today.

## British Take Steps to Pep Up Trading

By ANTHONY WHITE

LONDON (AP) — Britain took the first tentative steps today in a drive to strengthen its world trade and rebuild its flagging economy out of the wreckage of its Common Market hopes.

British planners looked around for freer outlets for the nation's commerce, denied unlimited access to the rich markets of the European Community by the collapse of the Brussels negotiations.

The first top-level move in the British offensive was a meeting set for later today between Prime Minister Harold Macmillan and Premier Jens Otto Krag of Denmark, one of Britain's partners in the European Free Trade Association (EFTA).

Krag said after his arrival in London Wednesday he wanted to hear more of British plans "about how we can go further with EFTA," the seven-nation trading group created as a British-led rival to the Common Market six.

British political circles suggested strengthening and even enlarging EFTA might help make up for what Britain lost through being excluded from the European Community.

Krag was expected to give Macmillan a firsthand report on President Charles de Gaulle's offer to help Denmark join the Common Market without Britain.

The British press called for a thorough look at the country's taxation and trade and for measures to put new nerve and spirit into its lagging industry.

Looking to the future of international trade, The Times of London said: "The sensible thing will be to join with the United States in its recent proposal to start tariff talks through GATT (the General Agreement on Tariffs and Trade)."

"The next step will be to discuss the possibility with our partners in EFTA at the next meeting in Geneva in the middle of next month. The extension of tariff concessions achieved with the (Common Market) six and the United States to the Common-

wealth and other countries should help to loosen some of the barriers not only surrounding the six but also existing between the Western industrialized nations and the underdeveloped countries."

Macmillan in a television address Wednesday night rejected the French idea of a Europe purged of strong American influence.

U.S. officials were reported warning America's European Allies the United States may reduce its contribution to European defense if they go along with any campaign by De Gaulle to reduce the American voice in Europe.

## Mattress Smoke Causes Death

COTTER, Ark. (AP) — Arthur V. Walker, about 70, a retired railroad man, died of smoke inhalation Wednesday after his mattress caught fire.

Sheriff Emmett Edmonds said Walker suffered first and second degree burns on both hands, and apparently had thrown the mattress into the back yard and collapsed in the kitchen.

A neighbor found the body. A coroner's jury ruled death by smoke inhalation.

## S. W. Pankey, 75, Formerly of Emmet, Dies

Samuel Madison Pankey, aged 75, retired employe of Arkansas Louisiana Gas Co. died Wednesday at Shreveport.

A native of Chatman, Mr. Pankey served as plant superintendent of Trees Compressor Station at Emmet and its predecessor companies for about 36 years before retiring in 1956. He had lived in Shreveport for about six years.

Funeral services will be held at 11 a. m. Friday at Osborn Home Chapel by the Rev. Scott L. Tatum. Burial will be in Greenwood Cemetery.

Surviving are his wife, Mrs. Myrtle Pankey; six daughters, Mrs. Charles D. Smyth of Shreveport, Mrs. R. W. Ledbetter, Plain Dealing, Mrs. Cleve Pardue Jr. of Vivian, Mrs. Sam Townsend of Rodessa, Mrs. Ramey Garland of Forman, Mrs. Merrill Baskins of Watonga, Okla., a son, Jack Pankey of Taylor, two sisters, Mrs. Steve Waldron of Chatman, La. and Mrs. Steve Jones of Monroe, La.

## State Withholding Bill May Be Bottled in Committee; Land Office Funds Rejected

LITTLE ROCK (AP) — The Revenue and Taxation Committee of the Arkansas House declined to act today on Pulaski County Representative Glenn Walther's tripe-longed withholding tax bill.

There were indications that an effort may be made to bottle the bill up in committee as one method of keeping it from a vote.

Hempstead County Rep. Talbot Field's motion to defer action on the bill was approved unanimously.

The committee heard a lengthy explanation of the bill by Walther and then listened to objections from Bill Becker, secretary of the AFL-CIO, and to support for the measure from George Dickinson, executive secretary of the Arkansas Free Enterprise Association.

The bill would do three things. It would put a withholding system into effect for the state income tax starting Jan. 1, 1964. It would cut the state income tax rate in half for 1963 and 1964 to avoid double taxation in 1964. It would put into effect a sliding scale with the eventual goal of permitting a full deduction for federal income tax paid.

The House Judiciary Committee withheld action on Led County Rep. W. L. Ward's bill to require integrated eating establishments to display signs declaring their integrated status.

By JOHN R. STARR

LITTLE ROCK (AP) — The Arkansas House refused Wednesday to overrule the Legislative Council and increase the budget for the state Land Department.

A hot debate on the budget matter occupied most of a two-hour session in the lower chamber.

Meanwhile the Senate was completing legislative action on a compromise teacher retirement bill. It passed a House version of the measure 31-0. The House voted unanimously for the bill a day earlier.

Perry County Rep. Paul Van Dalsem led the fight to raise the Land Department budget from the \$38,970 recommended by the council.

Van Dalsem offered two amendments to the general appropriations bill while the House was considering it in committee of the whole. The first amendment would have given the Land Department \$73,100 a year, the same as it gets now.

No sooner was this defeated 47-31 than Van Dalsem came up with the second, to set the budget at the 1957 level, \$65,100 a year. This failed 47-31 despite Van Dalsem's biennial speech in behalf of political patronage.

Van Dalsem argued that Land Commissioner Sam Jones needed more money to operate his agency efficiently and to provide jobs for persons who helped him in his campaign. The same kind of speech kept the agency's budget from being cut in 1961.

The opposition refused to be swayed this year, however. Rep. Claude Collier of Greene County, and others argued that the Land Department was an anachronism and could get by with the council-recommended amount.

The council cut the budget after one of its committee recommended abolishing the department. The Senate has under consideration a proposed constitutional amendment to do away with it.

Only one amendment to the general budget bill was approved by the House. This would give a salary raise of \$600 a year each to the three full-time clerks in the

Supreme Court.

Adoption of the amendment kept the bill from coming to a vote Wednesday. It may be voted on Thursday.

The Senate disposed quickly of the teacher retirement bill. It had passed its own version a day earlier with a statement from Sen. Clarence Bell of Parkin that it would "settle the matter forever."

The compromise was worked out in pre-session meetings between Gov. Orval E. Faubus and education leaders. It calls for the state to contribute \$5 million to the Teacher Retirement System in fiscal 1963-64 with the contribution being increased \$500,000 a year until the system is actuarially sound.

Teacher retirement was the No. 1 controversy of the 1961 General Assembly when Faubus and the Arkansas Education Association parted ways on how much the state should contribute.

What promises to create the most controversy in this session—an administration effort to require out-of-state insurance companies to invest in Arkansas—continued to shape up Wednesday.

The Senate got a new bill to increase the premium tax on foreign companies which do not invest 50 per cent of Arkansas policy reserves in Arkansas starting Jan. 1, 1963.

The new bill is similar to a House measure introduced earlier by Rep. Jack Oakes of Woodruff County with administration backing.

But corridor discussion centered around a bill introduced Tuesday by Sen. Lee Bearden which would revoke the right of foreign companies to do business in Arkansas if they do not invest 75 per cent of their reserves within the state within three years.

Most of the legislators contacted in a poll by The Associated Press said they thought the Bearden bill was too strict.

The Senate passed House bills to allow television stations to show sample election ballots for instructional purposes and to raise the salaries of general election judges and clerks from \$4 to \$6 a day.

## State 49th in Pay for Teachers

LITTLE ROCK (AP) — Arkansas teachers' paychecks were \$116 higher this school year than last, but the instructors still made \$1,998 less than the national average, a national research group said Wednesday.

The average salary for Arkansas teachers last year was \$3,734—which ranks 49th in the nation, the Research Division of the National Educational Association revealed.

Only Mississippi has a lower teacher salaries than Arkansas, \$127 a year less.

Elementary teachers in Arkansas received an average of \$3,565, the NEA said, while secondary teachers got \$3,940.

A breakdown showed that 48 per cent received less than \$3,500 a year, 45 per cent between \$3,500 and \$4,499 and only seven per cent from \$4,500 to \$5,499.

The NEA said there were 435,610 students enrolled in all Arkansas schools. It set the attendance rate at 95.2 per cent, well above the national average of 85.3.

## Declares U.S. Has to Maintain Farm Controls

By OVID A. MARTIN

WASHINGTON (AP) — President Kennedy insisted today that the government must continue to help manage farm production. But in a major reversal aimed at overcoming congressional opposition, he proposed voluntary instead of compulsory controls.

In a special farm message to Congress, he attached no price tag to his proposals. But an administration spokesman estimated that new programs for feed grains, milk and cotton would reduce annual federal farm costs between \$300 million and \$500 million a year.

Farm aid programs have been costing about \$3 billion a year. Under his new recommendations, Kennedy would have the government pay farmers to reduce production of existing surplus products—feed grains and milk.

Last year he had urged, but without success, that Congress give the government power to set rigid production quotas and impose heavy penalties on overproducers. These programs would have required producer approval at referendums.

Kennedy also recommended use of payments to solve a cotton marketing problem. Under the present cotton setup, foreign buyers get U.S. cotton at much lower prices than domestic users. Hence, the domestic users have been placed at a price disadvantage in textile markets and use of cotton at home has declined.

The President would leave untouched legislation enacted in 1938 authorizing mandatory production

## Bomber Blast in Air Kills 2 Crewmen

By JOHN MARLOW

MORA, N.M. (AP) — A mysterious pre-dawn explosion ripped through a B52 bomber high over northern New Mexico Wednesday, killing two of the six-man crew.

The eight-jet \$80-million plane on a routine training mission from Walker Air Force Base, N.M., disintegrated. A survivor said the plane had no difficulty prior to the explosion.

Found dead, strapped in the tail section, was M.Sgt. Harvey Dean, 39, gunner from Charleston, W. Va. Also presumed dead was the systems operator Maj. George Szabo, 44. Szabo's body hasn't been found but an Air Force spokesman indicated there was no doubt Szabo perished in the explosion.

Rescued during a 12-hour search of the rugged mountainous area were the aircraft's commander, Lt. Col. Donald Hayes, 39, Alta, Iowa; the copilot, Maj. Thomas J. McBride, 41, Panama City, Fla.; the navigator, Maj. Emil Goldbeck, 40, Roswell, N.M., and the radar operator, Lt. Col. Nicholas Horangic.

Horangic told newsmen Wednesday night, "We went through routine ejection procedures when the command was given to bail out."

He said the plane was flying at about 34,000 feet and there hadn't been any previous difficulty.

Goldbeck was the most seriously injured of the survivors with back and pelvic injuries. He was found atop a 9,500-foot ridge. It took rescuers nearly two hours to bring him down on a stretcher of saplings and horse blankets.

Horangic, who suffered a fractured left elbow, cuts and bruises, walked about four miles to a rural home and got a ride to Mora.

## Zumwalt Infant Dies Wednesday

The two-day old infant daughter of Mr. and Mrs. Henry Zumwalt of Emmet died yesterday in a local hospital. Graveside services were held at 1 p. m. today at Macedonia Cemetery, near Blevins. Oakcrest was in charge of arrangements.

Section C services will be held in all the Hope District churches from March 17 to 21.

Bill McClendon, Lewisville representative of the Aetna Life Insurance Co. has won membership in a national honorary organization in the 1963 Crop of Regionalism, of the Company's leading producers.

Bill will be awarded a citation at the Regional Meeting of top producers in June at Point Clear, Alabama.

Local basketball fans are reminded that the Bobcats will take on Waldo, one the better Class B teams in Arkansas at Jones Field House tonight.

Many a marriage would be a better union if the in-laws didn't consider themselves stewards.

noon. Cloudy and colder tonight. Cloudy to partly cloudy with little change in temperatures. High this afternoon in the mid 30s to the low 40s. Low tonight in the mid to high 20s. High Thursday in the mid 30s to the low 40s. Partly cloudy and cool with moderating trend beginning Friday.

Northwest Arkansas: Cloudy and turning colder this afternoon, becoming partly cloudy tonight and Thursday. Temperatures this afternoon falling into the upper 20s. Low tonight 12 to 20. High Thursday 28 to 35. Partly cloudy and a little warmer Friday.

Southwest Arkansas: Cloudy and turning a little colder this afternoon and tonight with drizzle ending this afternoon. Temperatures this afternoon in the 30s. Low tonight 18 to 28. Partly cloudy to cloudy Thursday with highs of 35 to 45. Partly cloudy and a little warmer Friday.

Northeast Arkansas: Cloudy and turning colder this afternoon and tonight with light drizzle ending this afternoon. Partly cloudy to cloudy Thursday. Temperatures this afternoon in the upper 20s. Low tonight 15 to 22. High Thursday 25 to 35. Partly cloudy and a little warmer Friday.

Southeast Arkansas: Cloudy and occasional drizzle this afternoon and early tonight. Partly cloudy to cloudy and a little colder Thursday. High this afternoon in the mid to upper 40s. Low tonight 22 to 30. High Thursday 36 to 42. Partly cloudy and a little warmer Friday.

ARKANSAS: Partly cloudy to cloudy with little change in temperatures this afternoon, tonight and Friday. A chance of light rain this afternoon, tonight and early Friday. Low tonight 25 north to 35 south. High Friday 38 to 48.

LOUISIANA: Fog and drizzle again tonight and early Friday, otherwise cloudy to partly cloudy through Friday. No important temperature changes. Low tonight in the 50s extreme south and in the 40s elsewhere. High Friday 62 to 74.

## FORECASTS

EASTERN and SOUTHERN MISSOURI: Decreasing cloudiness extreme south today; warmer except little change extreme southeast; elsewhere sunny and warmer except little change extreme southeast; elsewhere sunny and warmer; partly cloudy and warmer tonight; Friday partly cloudy and a little warmer; highs today 20-32; lows tonight 15-25.

ARKANSAS: Cloudy to partly cloudy through Friday with occasional periods of drizzle; little change in temperatures today and tonight; highs today upper 30s north to lower 40s south; lows tonight 26-30 north and mid 30s south; warmer Friday.

## Arkansas Regional Forecast

By THE ASSOCIATED PRESS

Central Arkansas: Cloudy to partly cloudy with little change in temperatures this afternoon, tonight and Friday. A chance of occasional drizzle or light rain this afternoon, tonight and early Friday. High this afternoon in the mid to high 30s. High Friday afternoon in the upper 30s to the low 40s. Partly cloudy with little change in temperatures Saturday.

Southeast Arkansas: Cloudy to partly cloudy this afternoon through Friday with no major temperature change this afternoon and tonight. A chance of light rain or drizzle south portion this afternoon and over area tonight and early Friday. High this afternoon 36 to 46. Low tonight 20 to 38. High Friday 42 to 50. Partly cloudy to cloudy and cool with a chance of light rain Saturday.

Northeast Arkansas: Cloudy to partly cloudy through Friday with a little change in temperatures. A

**SIGN OF THE TIMES**—Lapel button in the shape of the President's rocking chair is worn by Brooks Hays, White House liaison man. "The rocker does not stand for rest and complacency but for faith and confidence," says Hays.

## Two Charged in Little River Co.

TEXARKANA, Ark. (AP) — Labor Secretary W. Willard Wirtz has filed suit against two Little River County farmers, charging them with "widespread violations of the child labor provisions of the Fair Labor Standards Act."

The U.S. District Court suit against C. A. LaVoice and Elmer LaVoice of Foreman asks that the brothers be enjoined from such practices. It alleges that several minors from 9 to 16 years of age were employed for farm work during hours when they should have been in school, a violation of federal law.

Most of the LaVoice farms are engaged in cotton production.

**Earth Tremor**  
DENVER, Colo. (AP) — A fairly strong earth tremor shook parts of Denver Wednesday and was felt as far away as Boulder, 35 miles northwest.

No damage was reported.

chance of very light freezing drizzle this afternoon, tonight and early Friday. High this afternoon 30 to 36. Low tonight 24 to 32. High Friday in the upper 30s. Partly cloudy to cloudy and cool Saturday with a chance of light rain.

Northwest Arkansas: Cloudy to partly cloudy with no major change in temperatures through Friday. A chance of very light freezing drizzle this afternoon, tonight and early Friday. High this afternoon 28 to 36. Low tonight in the mid 20s. High Friday in the low 40s. Partly cloudy to cloudy and cool with a chance of light rain Saturday.

Southwest Arkansas: Cloudy to partly cloudy with no major change in temperatures through Friday. A chance of light rain or drizzle south portion this afternoon and over area tonight and early Friday. High this afternoon 36 to 46. Low tonight 20 to 38. High Friday 42 to 50. Partly cloudy to cloudy and cool with a chance of light rain Saturday.

Northeast Arkansas: Cloudy to partly cloudy through Friday with a little change in temperatures. A

# U.S., Canada

Continued From Page One

ment. But he blamed it on what he said were conflicting versions of defense policy given by Diefenbaker and Defense Minister Douglas Harkness in Commons debate last week.

OTTAWA (AP) — Speculation was widespread today that U.S. government criticism of Canada's failure to arm with nuclear weapons would spark a general election call and a campaign fought on nuclear defense issues.

The U.S. State Department criticism Wednesday found Prime Minister John Diefenbaker's Conservative government already under heavy fire from opponents in the House of Commons for its hesitancy in reaching a concrete decision on nuclear warheads for its Bomarc missiles in Canada and its bombers flying for the North Atlantic Treaty Organization in Europe.

The Social Credit party leader, Robert Thompson, called the American statement "a bombshell to say the least—it could be the spark to topple the government."

Lester B. Pearson, chief of the Liberals, the biggest opposition party, said he found it surprising that the United States should issue such a statement. But he blamed it on what he said were conflicting versions of defense policy given by Diefenbaker and Defense Minister Douglas Harkness in the Commons debate last week.

T. C. Douglas, leader of the New Democratic party, said he was shocked by the U.S. statement and demanded an emergency debate in Commons.

Diefenbaker's Conservative party lost its majority in Commons in the general election last June, winning 115 of the 265 seats. An election this spring has appeared certain, and there was considerable feeling that the U.S. intervention might hurry it. The U.S. statement seemed likely to make nuclear defense a major issue.

Basically in the opposition parties — the Liberals, Social Credit and the New Democrats — are opposed to arming Canada with nuclear weapons. Pearson, however, has said that since Diefenbaker committed Canada to them some time ago, he should honor the commitment and then negotiate out of the nuclear role.

The view here was that U.S. patience—after several months of talks with the Canadians—had run out. Diplomats said the Kennedy administration appeared well aware that its criticism could stir up anti-American reaction. But they said the adminis-

your

## SOCIAL SECURITY

**QUESTION:** I recently married and quit work to keep house for my husband. I am 65 and had worked where social security tax was paid for the last 17 years. My friends tell me I should see about having my social security account "frozen." Should I? If so, how?

**ANSWER:** I'm sure your friends have your interest at heart, but their advice is wrong. There seems to be an organization in Hempstead County dedicated to giving out this advice free of charge.

The "freeze" you ask about applied to some persons who became totally and permanently disabled back before November 1960. At that time there was an age limit on payment of disability benefits. Since November 1960 there is no age limit and hence — no "freeze." The "freeze" never applied to individuals other than those who were permanently and totally disabled.

## Dog Is Raising a Bear Cub

LITTLE ROCK (AP) — Little Rock Zoo Director Raymond Squires may have found an American "first"—a bear cub raised by a dog.

The cub, yet unnamed, was one of two abandoned by a mother bear. The other cub died.

Princess, the dog, came to the zoo from the city pound, where she had lost a litter of premature puppies the night before the abandoned cub was found.

"We aren't sure the situation will work out," Squires said. "We've never heard of its being done before."

But thus far the two animals have hit it off well.

Squires said the dog's milk may not be rich enough for the bear and there may not be enough of it.

Even if there is, his worries aren't over. The cub will quickly outgrow the 15-pound dog.

The cub squeals when the dog leaves the bed temporarily. And if Squires removes the cub from the cage, Princess stays right by his side.

## Emerson, Union Strill at Odds

PARAGOULD, Ark. (AP)—Emersons Electric Co. and striking members of the International Union of Electrical Workers remain at odds today after a session Wednesday with state Labor Commissioner Clarence Thornbrough and federal mediator W. M. Millie.

A similar session was held Tuesday and a third was set today.

The strike began last June 20, when 215 workers left their jobs. Many have been replaced by Emerson.

**BRAND-NEW WORLD**—Barbara Jean Sheppard, 9, Oklahoma City, Okla., whose vision has been severely impaired most of her life because of birth defects, can now see her pet English bulldog, Stag. Barbara Jean's vision began to show improvement recently while she was taking treatment at the March of Dimes-sponsored Birth Defects Treatment Center at the University of Oklahoma Medical Center.

## Declares U.S.

Continued From Page One

controls on cotton, rice, tobacco and peanuts. Likewise, he made no control proposals for livestock, poultry, fruits and vegetables—products now produced without any limitations.

In the case of wheat, he threw the full weight of his office behind a new mandatory wheat control program to be submitted to a grower referendum in the spring. This plan is opposed by the influential American Farm Bureau Federation which wants less government in farming.

The administration spokesman said the shift from compulsory to voluntary controls for feed grains and milk was dictated by the prospects that the new Congress, like the previous one, would reject rigid limitations.

Other legislative recommendations submitted in the message included:

Broadening of the Agriculture Department's program for training unemployed rural residents for nonfarm jobs and skills.

Legislation authorizing extension of the food stamp plan on a nationwide basis. This plan, now on trial in a limited number of com-

munities, provides low-income consumers with additional food purchasing power in the form of stamps redeemed by the government from regular stores. It would replace the long-employed direct surplus food distribution program.

Authorization of additional funds to keep out of crop production land retired under the Eisenhower administration soil bank. Retirement contracts under the latter program are beginning to expire. The return of this land to crops could add to surpluses.

Broaden the Agriculture Department's housing loan program to include nonfarm rural homes as well as farm homes.

Authorize use of repayments on government rural power and telephone loans to set up a permanent revolving loan fund for these purposes. At present, Congress must vote loan funds each year.

## Lacy Bid Low for Housing

LONOKE, Ark. (AP)—The Lonoke Housing Authority received an apparent low bid of \$549,000 Wednesday from Lacy Construction Company, Inc. of Texarkana for construction of low-rent homes at Cabot and Carlisle. The bid called for construction of 24 dwelling units, a management and maintenance building and site improvements at Cabot and 28 dwelling units, management - maintenance building and grounds work at Carlisle.

munities, provides low-income consumers with additional food purchasing power in the form of stamps redeemed by the government from regular stores. It would replace the long-employed direct surplus food distribution program.

Authorization of additional funds to keep out of crop production land retired under the Eisenhower administration soil bank. Retirement contracts under the latter program are beginning to expire. The return of this land to crops could add to surpluses.

Broaden the Agriculture Department's housing loan program to include nonfarm rural homes as well as farm homes.

Authorize use of repayments on government rural power and telephone loans to set up a permanent revolving loan fund for these purposes. At present, Congress must vote loan funds each year.

## Arkla Seeks to Get Taxes Back

LITTLE ROCK (AP) — W. R. (Witt) Stephens, president and board chairman of the Arkansas Louisiana Gas Co., filed a suit in U.S. District Court Wednesday asking return of more than \$300,000 in federal gift taxes and interest.

Stephens contended he paid the taxes under illegal and erroneous assessments for 1949 and 1956.

On Nov. 15, 1960, he said, federal revenue agents assessed him \$252,777 in additional gift tax for 1956 and \$376 in taxes for 1949.

He said he paid the taxes and six per cent interest and made claims for refunds last Nov. 9. Stephens said he was notified last week that the claim had been disallowed.

Stephens' attorney, William H. Bowen, said the government claimed Stephens owed the additional taxes on stock in the W. R. Stephens Investment Co., which has been succeeded by Stephens, Inc., that he gave to his brother, Jackson T. Stephens, in 1956. Bowen said the stock belonged to Jackson Stephens from the start of the investment corporation in 1946.

## All But 7 Free of Pink Worm

LITTLE ROCK (AP)—The Arkansas Plant Board released all except seven counties Wednesday from the pink bollworm control program. The action followed that of the Agriculture Department earlier this week.

## Murphy Income Shows Increase

EL DORADO, Ark. (AP)—Murphy Corp. announced today it had consolidated net income of \$1,531,000 in the fourth quarter of 1962, an increase of six per cent over the same quarter a year earlier.

This is equivalent to 38 cents per share on the average of 3,856,269 shares of common stock outstanding during the period after giving account to preferred dividends.

Net income was \$1,439,000, or 35 cents per share on the same number of shares in the same quarter of 1961.

## Harris Directing Medicare Hearing

WASHINGTON (AP) — Welfare Secretary Anthony J. Celebrezze will be the first witness next Tuesday when Rep. Oren Harris' House Commerce Committee begins hearings on the administration's plan for federal aid to medical education. Harris has introduced an administration bill providing a 10-year, \$677,500,000 program of construction grants to medical students in various fields. His committee approved a similar bill last year, but the House failed to act on it.

## Calendar

### Monday, February 4

The Liberty Hill Home Demonstration Club will meet in the home of Mrs. Jesse Powell Monday, at 7 p.m. All members are requested to be present and bring along a guest.

### Friday, February 1

Rose Garden Club will meet Friday, February 1, at 2:30 in the home of Mrs. Harry Shiver with Mrs. S. C. Crow as Co-Hostess. Mr. Monty Monts will be guest speaker.

### Monday, February 4

Circle 3 of the WSCS will meet Monday at 3:00 in the home of Mrs. C. W. Bridges. Mrs. Edward Ward will be the leader.

### Monday, February 4

Circle 6 of the WSCS of the First Methodist Church will meet in the home of Mrs. Arch Wylie at 2 p.m., Monday. Mrs. George Peck will be in charge of the study.

### Monday, February 4

Circle 2 of the First Methodist Church will meet Monday at 3:00 at the home of Mrs. Frank Walters with Mrs. Leand Warmack as Co-Hostess.

### Tuesday, February 5

Alpha Delta Chapter of Delta Kappa Gamma Society will meet in the home of Mrs. Florence Hyatt, Tuesday at 4 p.m. The program "Acknowledging the Contribution of Recognized Women Leaders" will be presented by Mrs. Belle Klipsch.

### Tuesday Bridge Club

On January 29 Mrs. E. J. Whitman was hostess to a meeting of her Tuesday Bridge Club. The two tables of players who assembled for the afternoon included a club guest, Mrs. E. M. McWilliams.

When scores were tallied, Mrs. R. L. Broach was high, and Mrs. George Robison was second high. Cake and coffee were served for refreshments.

### Emmet P.T.A. Meets

On January 17, the Emmet

P.T.A. met. The Ninth grade girls sang some special numbers and the Devotional was given by Mrs. Dale Boker and prayer by Mrs. Arthur Gray. Mrs. Barry Faulkner introduced the guest speaker, Judge John Wilson, who spoke on Juvenile Delinquency. He was accompanied by Chief Jack Brown. In the room count, Mrs. Arnett's 5th and 6th grades in lower room won and in high school, Mr. McFarlands and Mr. Lee's rooms tied. After a short business meeting, Mr. Cooper invited every one back to lunch room for refreshments, served by Mrs. Gray and Mrs. Douglas. Every one enjoyed having Judge Wilson and Chief Brown.

## Coming and Going

Out-of-town friends and relatives at the funeral services for Cecil E. Wyatt on Monday were: Mrs. Arminia Wyatt, Mr. and Mrs. Hollis Theart, Mrs. Eugene Hamm, Misses Janice and Sheila Theart, Joe Wilson, Jacksonville; Mrs. Elmer Fiddler, Conway; Bill Wyatt, Guistine, Calif.; Mr. and Mrs. Seaward Silvertooth, David and Jerry Silvertooth, Mrs. Patricia Hogan, White Oak, Tex.; Mrs. Oliver Williams, Mrs. Jack Williams, Mrs. John Henry Williams, Mrs. Willie Hollingsworth, Sheridan; Mrs. John A. Rigby, Mrs. Carl Freck, Mrs. J. Hearn Latimer, Mrs. Brice Darling, Mrs. Ware Ferguson, Mrs. Sloan Lawrence, Mr. and Mrs. Hugh Davidson, Nashville; Mrs. Vera Brent Harris, Glen Brent, Sparkman; Andy Neal, Van Buren; Ellis Dunlap, Kirby; Mr. and Mrs. Howard Kidd, Mr. and Mrs. Bobby Carroll, Mr. and Mrs. Clarence E. Anthony, Mrs. Alma Babbitt, Mr. and Mrs. Taylor Smith, Mrs. V. B. Lewis, Mr. and Mrs. William L. Amis, Mr. and Mrs. Thurman Ray, Mr. and Mrs. William Kalt, Mr. and Mrs. Leon Chaney, E. H. Waters, Thomas C. Glasgow, Mr. and Mrs. Frank Bray, Winston, May, Mrs. Kay Smedley, Murfreesboro; Mrs. Goldie Tugwell, Mr. and Mrs. Mack Williams, Donaldson; Tommie Vaughn, Glenwood; Mr. and Mrs. J. G. Prescott, McCaskill; W. E. Cottingham, Tom S. Bry-

## Would Drop Cotton Two Price System

WASHINGTON (AP)—A House Cotton Subcommittee headed by Rep. E. C. Gathings, D-Ark., heard proposals Wednesday that the two-price system for U.S. cotton be eliminated and that a three-year program be started to reduce cotton support prices. The first proposal was set forth by Congressman from North and South Carolina as a means of aiding textile mills and producers alike. Rep. Paul Findley, R-Ill., proposed the three-year program to "the government out of the cotton business." Gathings' subcommittee is considering what legislation might be hurried through Congress to solve some of the cotton trade's vexing problems. Several measures are pending, including some aimed at producing a domestic subsidy which would enable domestic mills to obtain U.S. cotton at world market prices, eliminating the two-price system. As it now stands, foreign textile mills buying cotton on the world market can send finished cotton goods into the U.S. at prices lower than domestic mills can charge. Findley's three-year program would:

1. Sell the cotton surplus back to the cotton farmer at an attractive price in exchange for one-year land-conserving agreements.
  2. Step down the level of price supports to world price.
  3. Increase plantings, with unrestricted planting after three years, at which time crop loans would be authorized at 90 per cent of the U.S. market price.
- If a subsidy is necessary to eliminate the two-price system, Findley said, it would be simpler to pay it directly to the farmer, rather than to a shipper or textile mill.

## Crossett to Study Huge Bond Issue

CROSSETT, Ark. (AP)—A special meeting of the Crossett city council will be held Friday to discuss a date for an election on a bond issue to finance some \$14 million in improvements proposed Wednesday by the Georgia-Pacific Corporation. Georgia-Pacific officials announced at a meeting with the city council and chamber of commerce it planned to construct a new tissue paper mill, plywood plant and fresh water reservoir if adequate financing can be arranged. Total amount of the bond issue required was not announced. The bonds would be retired through rental fees, officials said. The west coast firm purchased assets of the Crossett Company last year and has since operated the giant forestry industry as a subsidiary. The new facilities would mean an additional annual payroll of \$1.5 million for the community, William C. Norman, vice president and general manager of the Crossett Division, said. They would employ an additional 275 persons initially. Norman said plans are for both plants to be in operation by 1964. The new tissue mill would cost \$9 million and would turn out 85 tons of toilet and facial tissue, napkins and paper towels, daily.

son, Prescott; A. D. May, Mrs. Ralph L. Adams, Earl Rhodes, Roy Avery, Delight; Charles T. Robb, Little Rock; Mrs. Elizabeth Horton, Mrs. Willie Rowe, Washington; Albert Bray, Mr. and Mrs. John Lester, Lewisville; Tom Butcher, Pine Bluff; Algeon L. Stuckey, Texarkana, Ark.

Mrs. Taylor Stuart returned home last weekend after spending several weeks in Hollywood, Fla., with her sister, Mrs. G. E. Graham.

Mrs. W. B. Attebery of Dallas, Tex., has been visiting her aunt, Mrs. S. L. Bracy.

Mrs. G. O. Bryant visited her daughter, Mrs. Bill Lus, and family in Little Rock last week.

Stuart Spragins of Little Rock was the guest of his sister, Mrs. B. C. Hyatt, when he was in Hope this week.

Among the out-of-town friends and relatives at the funeral services for Lamar Cox Monday were: Miss Nannie Jett, Mrs. Max Bishop, Mr. and Mrs. Weldon Glass, and son Shep, of Texarkana; rs. W. R. Orton, Sr. of Crossett; Miss Ethel Fincher, Mr. and Mrs. Lester of Waldo; Mrs. Jim Sandridge, Mr. and Mrs. Less Johnson, Edgar Cargile, Mr. and Mrs. S. A. Hulson of Little Rock; Mrs. Oliver R. Williams of Sheridan; Mrs. Ruben Wilson of El Dorado; Mr. and Mrs. Brooks Shults, Mr. and Mrs. Sam McGill of Fulton; Mr. and Mrs. Hamilton Orton of Ashdown; Mrs. Deamon Wylie of Emmet.

## Malvern Homes to Be Serviced

LITTLE ROCK (AP)—The Central Arkansas Telephone Co-operative, Inc., gained permission from the Public Service Commission Wednesday to service rural homes in an area west of Malvern. The co-op obtained authority to run lines to rural homes along the Hot Spring and Clark County boundaries that do not now receive service. In other action, the PSC approved refinancing plans for six subsidiaries of General Waterworks Corp. of Philadelphia. The firms and the amounts to be refinanced were:

Russellville Water Company, Inc., \$450,000; Hamburg Water Company, Inc., \$63,000; England Water Company, Inc., \$71,000; Fordyce Water Company, Inc., \$178,000; Rison Water Company, Inc., \$30,000 and Morrilton Water Company, Inc., \$84,000.

## Beef, Pork, Poultry Are Best Bets

Weekly Food Review  
By THE ASSOCIATED PRESS  
Beef is bargain-priced at many supermarkets this weekend as it competes for favor with generous supplies of pork and poultry. One national chain offers rib roasts at 69 cents a pound in its New York outlets, with top sirloin at 99 cents. Other beef attractions over the nation include sirloin steaks, liver and stew beef.

Pork loins and chops, and smoked hams, picnics and butts, are widely featured. Sausage is a regional bargain. Fryers, broilers and baking hens continue to be offered at low prices. Fruit prices continue to reflect winter freezes. With the remaining supply of Florida oranges estimates at about half what it was at this time a year ago, shipping-point prices of top quality fruit have just about doubled. Apples, grapes, cherries, winter pears and avocados help fill the void at relatively reasonable prices.

Snap beans, lima beans, sweet corn, green peppers, tomatoes and eggplant are higher in most areas. New cold waves have continued to hinder growth. Vegetables that show the least effect of the weather include beets, carrots, spinach, celery, escarole, lettuce and cauliflower.

## January Was One of Worst in History

By THE ASSOCIATED PRESS  
One of the coldest months in history approached an end today with another round of shattered records. La Crosse, Wis., watched the mercury retreat to -9. That made it the 20th straight day of subzero readings. It bettered the previous long run of 19 days that occurred in 1875 and again in 1899. Chicago, with -5, marked off the 15th January day in which temperatures dropped under zero—the most such shivery days of any month on the books. The old record was 14 in February of 1875—88 years ago.

The -19 set an all-time low for the date in Moline, Ill. But the intense cold was confined pretty much to the central section of the country. Temperatures rode a rising trend in much of the western half of the nation, with readings in Montana and Wyoming 30 to 40 degrees higher than the previous day. Blinding snow obscured mountain passes and peaks in the Cascades, Sierras and northern Rockies.

## Scores Success

CAPE CANAVERAL, Fla. (AP)—The Pershing artillery missile, scheduled for operational deployment in Western Europe later this year, scored Wednesday night its 39th success in 46 test launchings. The Army announced that the Pershing's guidance system tilted the missile after launching to simulate a jolt from hurricane-force winds. The Pershing then righted itself and sped to a target 200 miles away.

It would employ about 175 persons, Norman said. The plywood plant, to produce sheathing grades from pine logs, would cost \$1.5 million and produce up to 60,000 square feet of 4-inch plywood a year. Norman said plans are for both plants to be in production by early 1964.

The 1,700 acre reservoir would be constructed on the Saline River and would hold over four billion gallons of water. Water would be pumped into the reservoir from the river at a rate of 100,000,000 gallons a day to supply plant operations, Norman said. The special city council meeting to consider the election was announced by Mayor Vaskell Carter.

## Cities Work on Double Courthouses

CORNING, Ark. (AP)—Committees from Corning and Piggott are working together on plans for new courthouses in both Clay County cities so the county can retain its dual records system.

Bankers Tom Leggett Jr. of Piggott and F. B. Mann of Corning head the committees, which will try to work out details on a \$671,000 courthouse for Piggott and a \$471,000 building for Corning.

Clay County is one of several Arkansas counties that has dual county seats. The county offices are in Piggott and deputy offices are in Corning. Records for the western half of the county are kept in the Corning courthouse and for the eastern half, in Piggott.

The Corning courthouse was destroyed by fire last Friday, and that city must build a new building. The Piggott courthouse is old and too small for a growing records section, and that city also needs a new building. Mayor Ulysses Cochran of Corning said the committees will work out a bond issue election to levy a tax of approximately 3 or 3.5 mills to finance the buildings.

The western division records were saved from the flames and the Corning half of the county government has been set up in extra space at an auto parts store. It was at first reported that the fire started on the south side of the courthouse in the vicinity of the county clerk's office, but later Fire Chief D. A. Sulder said the fire began on the north side of the building in the Revenue Department. Cause of the fire was not determined.

The dual courthouse system was established years ago in Clay County when travel across the Black River bottoms east of Corning was difficult.

Bar Meet Opens  
NEW ORLEANS (AP)—The American Bar Association's mid-year meeting opened today with more than 1,000 lawyers and trial judges attending. Eight related legal organizations will meet in conjunction with the annual bar association affair, which lasts through Tuesday.

## Churchill's Works

BOSTON (AP)—The writing of Sir Winston Churchill's official biography has been entrusted to his son, Randolph Churchill, Houghton Mifflin Co. reported today. The publishers said Randolph Churchill made the announcement at his home at East Bergholt, Suffolk, England. Nothing will be published in Sir Winston's lifetime.

established years ago in Clay County when travel across the Black River bottoms east of Corning was difficult.

## Takes Ribbing But May Get Job

LITTLE ROCK (AP)—Sen. Thomas Penn of Black Rock took a bit of good-natured ribbing Wednesday—and may come out of it with an extra job.

Sens. Clarence Bell of Parkin and Charles George of Cabot got considerable laughter from co-members when the introduced a resolution that would make Penn chairman of the "Senator Thomas Penn Blackbird Study Committee."

The resolutions cites Penn as an outstanding authority on blackbirds and points out that he was sponsor and driving force behind a 1961 act which appropriated \$10,000 for the radiation of certain birds, including blackbirds.

Penn will be able to select two committee members to assist him in studying the blackbird situation in Lawrence County if the resolution passes.

Progress Is Reported in News Strike

NEW YORK (AP)—Mayor Robert F. Wagner today reported progress toward settling the city's 55-day newspaper blackout after an extraordinary 18-hour City Hall negotiating session.

But he said "The parties are still a long way from settling this dispute."

Wagner said several issues in the controversy between publishers and striking printers had been settled.

Several others, he said, had been declared "by the parties to be readily susceptible of settlement."

The mayor said two critical issues remained unresolved. He did not identify them, nor did he specify which issues had been settled.

A resumption of negotiations was scheduled for noon Friday.

The marathon talks began shortly before 4 p.m. Wednesday and continued until almost 10 a.m.

Wagner, in a desperate effort to break the deadlock, conferred alternately with representatives of the publishers of nine closed dailies and striking Local 6 of the AFL-CIO International Typographers Union.

Facts About Life Around Arkansas

By J. C. TYLLMAN  
Associated Press Staff Writer

Eleven years ago on Jan. 14, Leonard Ponder of Murfreesboro made a frantic drive on a cold, wet night.

He had four infants in his car—quadruplets born to his wife at Murfreesboro. He was taking them to the warmth and safety of an incubator in Nashville.

Murfreesboro was without a hospital then, so the doctor sent the father ahead to the hospital while he cared for the mother.

Last week, Dickie, Danny, Dewey and their sister Donna, all fourth graders now, celebrated a normal birthday — on a typical school day.

Ponder, an employee of the state Highway Department, says he still remembers the newsmen and cameramen descending on the town and all the help townfolk gave them, but they've now settled into a fairly routine life.

Mr. and Mrs. E. H. (Gabe) Manus qualify as the oldest married couple in Chateaugay County.

They have been residents of the Delfore community northwest of Monette since 1900, the year they were married. Manus is 95 and his wife 90.

They live in a three-room log house that Manus not only built, but hewed the logs for as he cleared timber from the land on which it stands.

The house was built in 1916 in what was then known as Wheeler Community. It became Delfore in 1923.

The two were married in Mammoth Spring. They have bought a modern home now and will soon move into it.

A first-grader pointed up the influence of educational games at Little Rock one cold morning while waiting on her mother to fix breakfast. She had been given a card game that teaches various kinds of plant and animal life.

She was dawdling near the window when the inspiration to do a bit of art hit her.

She tackled the job deftly, completed a large drawing, then proudly announced, "Look, momma! A measled cowry."

The drippy sketch was a pretty fair replica of the brightly colored shell fish found in topic waters.

And you hear about kids not being able to spell these days?

At the Bay school in Craighead County, the senior classes started taking a special spelling test in 1959. The class average was a rather bad 49 per cent.

The 1963 class did quite a bit better. They averaged 71, with 20 per cent of the business students making 95 or better.

Treasury for Smoke Cancer Victims

By ALTON BLAKESLEE  
Associated Press Science Writer  
NEW YORK (AP)—In Iceland, cigarette smokers are raising a treasury for cancer education and research.

A special tax of half a cent per pack has been levied, the money to go to the Icelandic Cancer Society. The society expects to reap about \$50,000 a year, all above its current annual income of \$10,000 to \$20,000, says Dr. Niels Dungal, society president.

Part of the money raised when smokers smoke will go into a campaign to urge people, especially teen-agers, not to smoke. If this succeeds, the revenue from the cigarette tax will go down.

Iceland apparently is the first country to earmark a tax on cigarettes for such purposes, Dungal said in an interview during a visit to the United States. The tax took effect Jan. 1.

The society hopes to give regular smear tests for early detection of cancer of the cervix to all women aged 25 to 60 and to seek causes of stomach cancer.

Dungal, professor of pathology at the University of Iceland, is among those who blame cigarette smoking as a cause of lung cancer, a position challenged by some others, including the tobacco industry.

"Thirty years ago Icelanders smoked less than any nation in Europe and had practically no lung cancer," he said. "The cigarette imports were limited to one pound of tobacco (about 450 cigarettes) per person per year and have risen to 3½ pounds (1,575 cigarettes) per person. Some do not smoke at all while others smoke one to two packages a day, and a few even more."

Lung cancer has increased to about 10 to 15 cases per year, compared with one case a year 30 years ago, Dr. Dungal said.

Washington Crime Brings Concern

WASHINGTON (AP)—The wife of former Rep. Brooks Hays (D-Ark.) said Wednesday she and her husband were "very, very concerned" about crime in Washington's Capitol Hill area.

Mrs. Hays' wrist was broken recently during a robbery attempt in which a Negro youth threatened her life and stole \$12.

Mrs. Hays comment came after it was revealed her husband had written Rep. Basil L. Whitener, D-N.C., about conditions in the area.

Whitener is a member of the House District of Columbia Committee. Hays is special assistant to President Kennedy.

Hays wrote, "We need, along with a spirit of calmness, an awareness of the extent of the dangers that exist in the Capitol Hill area and the related problems of law enforcement."

Mrs. Hays commented, "we are not panicked enough to move, but we are very, very concerned, not only about what happened to me, but about the other criminal acts so frequent on the Hill."

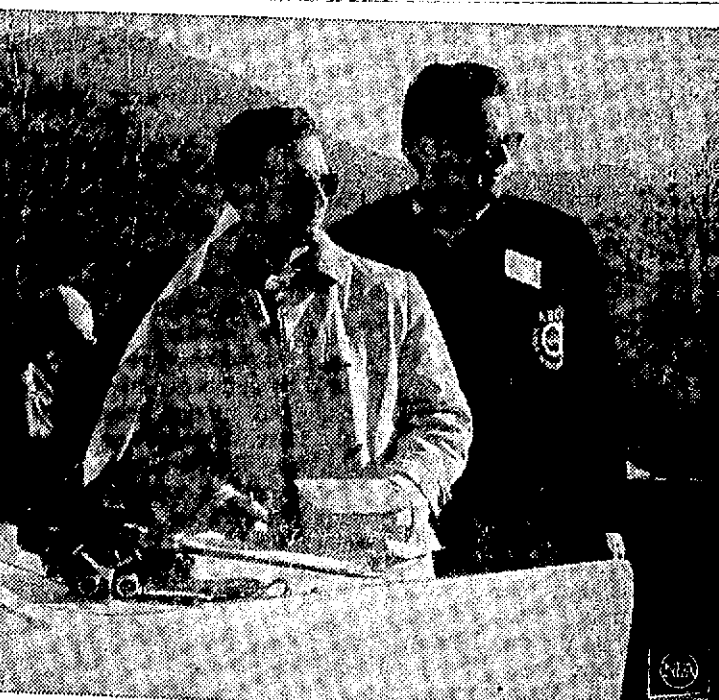

Producer Dies

HOLLYWOOD (AP) — Funeral services will be conducted Thursday for John Farrow, 58, movie producer, director and writer, who died Sunday of a heart attack.

Farrow's widow, actress Maureen O'Sullivan, flew here Tuesday. She had been appearing in a New York play, Never Too Late.

**SARTORIAL STARS**—Actor Gene Kelly, left, adjusts tie in reflection of plaque held by actress Cyd Charisse as actor Vincent Edwards looks on. Kelly and Edwards were named the best-dressed movie and television actors by a men's apparel club in Hollywood, Calif.

**Newsman William Neumann and Chris Economaki in Monaco typify casual but presentable traveling attire.** Neumann wears toggled, sand-colored suburban coat. Economaki has a dark blue sport jacket and dark pull-over. French motorcycle gendarme.

Wake Forest to Recruit Negroes

WINSTON-SALEM, N.C. (AP)—Wake Forest College athletic officials said Wednesday they will actively recruit Negro athletes.

Coach Billy Hildebrand made the statement in commenting on an announcement from the University of Maryland, which said it will have a Negro player on the team next season.

Maryland Coach Tom Nugent said Darryl Hill, a Negro half-back, has transferred from the Naval Academy to the University of Maryland.

Nugent said Hill likely will be a starter. Hill would be the first Negro to play on any Atlantic Coast Conference major sports team.

Smokey Says:

All this could be ruined by carelessness

Wake Forest to Recruit Negroes

South Carolina is the only area of the conference where Negroes on opposing teams are not welcome. Maryland plays at the University of South Carolina and Clemson next season.

## Razorbacks Returning to Cage War

FAYETTEVILLE, Ark. (AP) — The University of Arkansas resumes its basketball wars at Tulsa, Okla., tonight after suffering a loss during the academic lay-off.

A Razorback spokesman said Wednesday that Bobby Anderson, a senior basketball player from Pine Bluff, was no longer eligible because of scholastic difficulties.

The 6-7 forward, a two-year-let-terman, passed the nine scholastic hours required by the Southwest Conference, the spokesman said, but had not accumulated enough hours to remain eligible.

It was also learned Wednesday that Jerry Rogers, an outstanding defender for Arkansas early this season before suffering a leg injury, would get off crutches in the next few days.

However, Rogers, of North Little Rock, probably will not play any for Arkansas the rest of the year.

The Porkers go to Tulsa hoping to build a full head of steam for the long SWC haul. Arkansas is 2-2 in conference play, the same record it held at this time last year.

The next SWC opponent for Glen Rose's crew will be Texas A&M at Fayetteville at 2 p.m. Saturday.

The game was originally scheduled to be played at night, but U of A officials requested the change in hopes of attracting bigger crowds.

The Porkers have played only two non-conference games here, but the tide will be reversed by the February schedule. Opponents will come to Fayetteville five out of the next eight games.

Meanwhile, Tommy Boyer has resumed his spectacular free throw shooting accuracy. He ranks second in the nation with a .914 mark (53 of 58 attempts). The leader is Bonham of Cincinnati with a .924 percentage. Boyer set a National Collegiate Athletic Association record for free throw shooting in 1961. He hit .933 per cent of his attempts. Last year he had a streak of 40 straight free throws without a miss.

He also ranks fourth in conference scoring with a 15.5 average per game. If he maintains the pace, he will become the third player in Arkansas basketball history to hit the 1,000-point mark in a three-year career. The others are George Kok, who did it in 1946-48, and Jerry Carlton, who did it in 1960-62.

Boyer already holds the Arkansas one-season scoring record. He put in 260 points in the 1961-62 season to surpass Clyde Rhoden's previous high of 258.

The Razorbacks' season record is 7-6.

GETTING THE GATE—Exercise boy Mike Manin is unloaded while schooling Phoenix Star at the Hialeah Race Course gate. English thoroughbred is unaccustomed to barrier.

## Drake Hopeful for Missouri Valley Title

By BOB GREEN  
Associated Press Sports Writer

Comes now Drake, full of high hopes and dim prospects.

The Bulldogs, who have won only once in the Missouri Valley Conference this season, face the grim task of attempting to sidetrack Cincinnati's mighty Bearcats tonight in the top game on the nation's college basketball schedule.

The only other major undefeated teams in the country—Loyola of Chicago and Niagara—also put their perfect records on the line with only Niagara anticipating major difficulties.

Niagara, with a 9-0 season record, heads into the heavy part of its schedule against rebounding Georgetown, D.C., tonight and follows against tough Providence. Georgetown sports only an 8-7 mark, but has won its last six.

Cincinnati and Chicago Loyola, ranked 1-2 in the country, are heavy favorites over Drake and Washington of St. Louis, respectively.

Another key game pits Wake Forest against South Carolina. The Deacons will be seeking sole control of the top spot in the Atlantic Coast Conference.

Wake moved into a share of the ACC lead Wednesday night on the strength of a 79-70 triumph over North Carolina State. It boosted the Deacons' season record to 9-4, but 7-0 in the conference.

West Virginia's brilliant combination of Rod Thorn and Jim McCormick led the Mountaineers to a 114-67 rout of Florida, snapping a two-game West Virginia losing string. The Mountaineers now are 13-5 for the season.

Detroit blew all but one point of a 16-point lead, then recovered in time to upset Michigan 83-70.

### Television Villains Hard to Find

By CYNTHIA LOWRY

A Television-Radio Writer

NEW YORK (A) — It is getting harder and harder to find suitable occupations for television's villains.

Furious, complaining — even threatening — letters pour in every time a member of a profession or trade is painted in less than a heroic light. Today few programs dare present a quack doctor, a shady lawyer, a crooked cop, a toothful plumber, a heavy-handed dentist, a swindling stockbroker or a hard-hearted banker.

But now another less well-organized group is being alerted to the perils of the tarnished image. In the current issue of Sales Management, a trade magazine, the editor writes angrily about the television picture of a salesman.

He is a living, breathing and repulsive being who enters millions of living rooms nearly every day and evening.

The editorial described the TV salesman heavy as polished, poised, suave and well-dressed.

The remedy editor Philip Salisbury suggests the one that other offended groups have used: Write complaining letters — to managers of stations that show the programs, with carbons to program sponsors who just may have some salesmen of their own.

Merv Griffin's announcement on his afternoon program Wednesday that NBC has cancelled his show effective March 30 (to be replaced by two soap operas) resulted in such a flood of telephone calls from viewers that it tied up the switchboard completely at one point.

Griffin said earlier that although NBC has been holding conferences about his future, "no body has been negotiating with us or talked about anything specific."

Meanwhile, there are reports that ABC and CBS are very very interested in Griffin's future plans.

Recommended tonight: "George Gobel Presents," ABC, 10-11 (Eastern Standard Time)—Filmed variety show on the "Premiere" series, and hopefully a preview of a next season series: "Andy Williams Show," NBC, 10-11 — Lorne Greene and Dan Blocker of "Bonanza" are the guest stars.

When to Fish or Hunt

Solunar Tables

By John Alden Knight

The schedule of Solunar periods as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major periods are shown in bold face type. These begin at the time shown and last for an hour and a half or two hours there after. The minor periods, shown in regular type, are of somewhat shorter duration.

### Perry's Cagers in 103-74 Win

At Jones Field House last night Perry's Independents trimmed a team from Red River Arsenal by a score of 103 to 74.

High for the winners were Lee with 24, Bruce made 21, Calhoun tossed in 18 and Brown had 17. For the visitors Liles, high point man of the game with 31 and Warren had 24.

### Sugar Ray Victory Is Unpopular

By JACK HAND  
Associated Press Sports Writer

MIAMI BEACH, Fla. (AP) —

Sugar Ray Robinson still is plodding down that long, long road with an unpopular split decision over Ralph Dupas added to his 23-year record.

"It's disgusting. It makes you want to retire," said Dupas, the loser Wednesday night at the Miami Beach Convention Hall. "I clearly won and didn't get the decision. What can you do to win."

"I was lucky I caught him with that good punch in the seventh round," said Robinson. "But it was a little high. I thought I won but then, I never question the officials' decision either way."

Robinson, now 42 and a veteran of 167 pro fights dating back to 1940, was given the votes of referee Billy Reagan, 98-96, and Judge Barry Pearlman 97-94.

Judge Jim Ruby voted for Dupas 98-94. The AP also had Dupas out front, 98-94.

The crowd of 6,232 that paid \$25,558 one of Miami Beach's best fight gates, booed the decision.

"If the fight was close," said Dupas, 27, of New Orleans, "he might have got it. But it wasn't even close."

Robinson, a six-time champion in the welter and middleweight division, had a 124-pound edge on Dupas at 162 pounds to 149 in the 16-round match. The faded Sugar proved he still could move around but the punches no longer came in stunning rapid succession.

Postmastership Applications

WASHINGTON (AP) — Applications for postmasterships at seven Arkansas communities will be accepted until Feb. 19, the Civil Service Commission announced Wednesday. The communities are

Tyronza, Warren, Banks, Hardford, Jasper, Lakeview and Melbourne. Written examinations for the posts will be given later, the commission said.

Former Arkansas Girl Murdered

CHICAGO (AP) — Ronald F. Zabel, 26, of Chicago, was held in the Cook County jail Wednesday, charged with murdering Juanita Zenteno, 31, formerly of Moro, Ark., who was a stenographer at Chicago Wesley Memorial Hospital. Prosecutors were readying evidence for presentation to a grand jury. Zabel, a father of two, was accused of suffocating the Zenteno woman with a pillow. Police said Zabel telephoned them Saturday and said he had killed Ford, Jasper, Lakeview and Melbourne. Written examinations for the posts will be given later, the commission said.

## You Too Can Be Hunter of Elephants

By RICHARD F. LONG

**THEY DON'T "HAPPEN"**— "Accident Handbook" published by Children's Hospital Medical Center, Boston, Mass., takes the positive approach toward accidents involving children in the home, stressing that accidents are caused—they don't "just happen." "Golden rules" for accident protection and positive, specific first aid notes for various conditions make up the major portion of the text. The booklet is string-equipped for hanging by the phone, and has back-of-the-cover space for emergency numbers. You can get this worthwhile booklet by sending 25c to Public Information Office, The Children's Hospital Medical Center, 300 Longwood Ave., Boston 15, Mass.

## Sub-zero Clings to U.S. Areas

By THE ASSOCIATED PRESS

Subzero cold coming to some northern sections from the Rockies to the Midwest today but there was welcome relief from the frigid weather of the past two weeks in most of the nation. Snow, rain and sleet covered broad areas of the country. Rain splashed over most of the California coastal areas, from Los Angeles to Oregon and parts of Nevada. The rains were of much benefit in Southern California, easing the longest drought in the region's history. Heavy snow fell in southern Oregon mountain sections, with more snow throughout the state and freezing rain indicated in Portland where 3 to 6 inches of snow cover the ground. Temperatures climbed above zero Tuesday for the first time in more than two weeks in some of the snow-covered sections of the Midwest. The below zero zone this morning covered sections of the northern Rockies and the northern Midwest. Lowest reading was -24 in Bozeman, Mont. It was -14 in Marquette, Mich., and -13 in Minneapolis. A blowing snowstorm which hit Montana diminished and a warming trend was indicated. Temperatures appeared near normal in Colorado and Wyoming, with a few sections reporting below zero. Freezing rain pelted much of Georgia and the state patrol reported nearly all roads north of Atlanta were closed. Hazardous driving conditions were reported through central and northern parts of Georgia, eastern Tennessee, northern South Carolina and western North Carolina. However, warmer weather was on the way.

## Bell Proposes New \$1 Rate on Calls

WASHINGTON (AP)—The Bell telephone companies are proposing a new \$1 or less rate on telephone calls between any two points within the continental United States between 9 p.m. and 4:30 a.m., and increases of 5 to 10 cents on certain person-to-person long distance calls. The Federal Communications Commission announced today the companies have reported they will file these rate schedules. The new rates, to become effective about April 1, would cut revenues of the companies by \$30 million a year, the commission said.

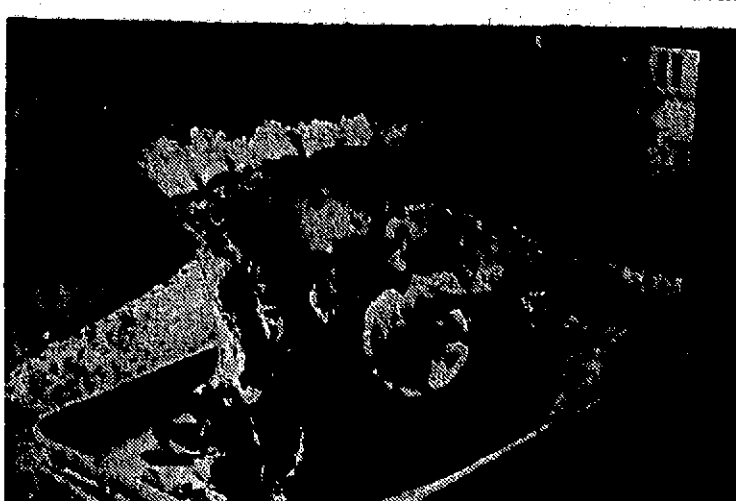

Under the plan, a three-minute station-to-station interstate call would cost a maximum of \$1, plus 25 cents for each additional minute, between 9 p.m. and 4:30 a.m. This would include, for example, a Washington to San Francisco call, which now costs \$1.75.

The after nine reduced rates are designed to encourage telephone uses to take advantage of the technological improvements in telephone plant introduced by the Bell System in recent years, much of which is engineered for peak daytime usage, the FCC said.

At the same time, increases of 5 to 10 cents in person-to-person calls up to 300 miles will be put into effect, the commission said. Person-to-person calls at these shorter distances have not borne their proportionate share of the cost of furnishing such services, the commission said, and these minor increases will help to correct this inequity as well as the disparity where it exists between interstate and intrastate rates.

## Auction Postponed

LITTLE ROCK (AP)—The auction of Europa and the Bull, a life-size statue of a mythological figure, has been postponed two weeks, attorneys said Tuesday. The unusual statue was to have been sold Thursday to satisfy a \$12,000 judgment.

NOVEL recipe for winter, Hawaiian Rack of Lamb, can add interest to our menus and help us forget the cold weather.

## State Taxes Paid Total \$168 Million

LITTLE ROCK (AP)—State Revenue Commissioner Ted Donham said in his biennial report issued today that Arkansas paid \$168,931,000 in state taxes in the 1961-62 fiscal year. He said an expanded economy is the main factor for the rise

from the \$98,544,564 paid in the 1952-53 fiscal year, 10 years ago. But he said some taxes have been increased.

Gasoline taxes were the same in 1961-62 as in 1953-54, Donham said, but last year Arkansas paid \$42,991,996 in gasoline taxes compared to \$28,144,851 in 1953-54.

Cigarette tax revenues were at an all-time high of \$9,949,200 last year, Donham said. Sales tax,

## For Small-Grain Referendum

ATLANTA (AP)—The outgoing president of the Southeastern Poultry and Egg Association says the price of poultry may go up if farmers pass the small-grain referendum this spring. Anytime grain — especially corn — goes up, the price of poultry must rise, A. A. Middleton of Dothan, Ala., said in an interview Monday. The margin of profit is so close now that any increase in the cost of any step of poultry production would mean a consumer cost increase, he said. The southeastern practice of taking land out of corn production in order to get government money for not planting also increases poultry costs, Middleton said, adding:

## Bath Business Hits a Peak

HOT SPRINGS, Ark. (AP)—The National Park Service reports Hot Springs' thermal bath business hit a 27-year low in 1962, but the city's chamber of commerce said the overall economy of the resort was never better. The service said 478,788 thermal baths were taken last year, compared with the 1946 record of 1,048,673. But the service said 1,074,000 persons, a record, visited Hot Springs last year. Mort Cox, manager of the chamber, said not all 16 bath-houses had reported a dwindling number of customers. Some even have reported business up. The Fordyce bathhouse, oldest of the group now there, closed several months ago and is for sale, the chamber said.

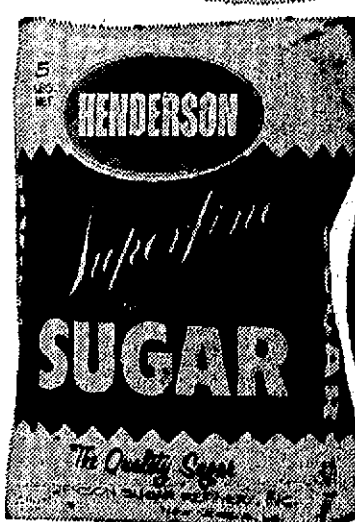

We have always been a grain importing section. We need to raise more in this section and save the freight costs. Paul Morgan of Guilford, N.C., a suburb of Greensboro, was elected president of the group for the coming year.

## Union Raps State Withholding

LITTLE ROCK (AP)—The state AFL-CIO charged in a newsletter Tuesday that if Arkansas loses money under a proposed new income tax plan, measures will be taken to retrieve the revenue. The union attacked HB 165, a proposal introduced by Rep. Glenn F. Walther of Pulaski County to set up a withholding system on state income tax and allow citizens to deduct their federal income tax payments in figuring state assessment. Backer of the proposal claim the deficit created by allowing deductions on federal taxes would be made up by collection of taxes from citizens who would not ordinarily file. If the state loses too much revenue, you can rest assured it will be made up another way—possibly in increasing the sales tax again, the newsletter charged. The newsletter said the Walther bill seems attractive until analyzed, but actually is a boon to corporations and high income persons. It termed the bill a threat to low-income residents. Sure, it will save every taxpayer some money, the letter said, but the tax savings are staggering for the high income people and corporations.

## Ruling on Tax

LITTLE ROCK (AP)—The State Attorney General's office ruled Tuesday that Arkansas income tax payers must report on state returns the information sought about their federal tax payments. A ruling went to T. E. Stanley of Augusta that the state Revenue Commissioner has the authority to promulgate rules and regulations.

**FIRE**—Muguette Fabris, 22, a mathematics teacher in Paris, was fired by her school's director after she became Miss France. The director disapproved of her hair style and clothes.

### Sex Before Marriage Increasing

By G. K. HODENFIELD  
AP Education Writer

WASHINGTON (AP) — Sexual intercourse before marriage is increasing on college campuses, a group of educators reported today.

Writing in the scholarly Journal of the National Association of Women Deans and Counselors, the experts emphasized that it is not just a case of wild youth growing wilder.

Rather, they said, it is a reflection of:

Young people pursuing their educational goals against a background of international tension and social chaos.

A society which preaches strict standards of sexual morality, but does not practice what it preaches.

The disappearance of adult control at the late adolescent level.

The arrival on campus of a late adolescent who is largely unprepared for and often incapable of managing the responsibility for

biological and social maturity.

The Journal, a monthly publication, devoted its entire January issue to Student Sex Standards and Behavior: The Educator's Responsibility.

Kate Hevner Mueller, professor of higher education at Indiana University and editor of the Journal, posed the problem this way:

Crises are inevitable, soul-searching routine and confusion rampant, for sex behavior and sex ethics have become national problems, unacknowledged, unsavory, and unsolved.

Lester A. Kirkendall, professor of family life at Oregon State University, said 30 years' experience in working very closely with young people concerning all kinds of sexual problems and experiences has led him to assume that:

1. College youth are confused and uncertain concerning sex standards.
2. Much premarital sexual intercourse occurs among college level youth. I believe that the proportion of college youth engaging in premarital intercourse is increasing.
3. At the late adolescent level, adult control has practically disappeared. The actual decisions as to what sexual practices shall be

### Frisco Honeful for More Snow

SAN FRANCISCO (AP) — The first snowfall since November lifted the hopes today of hard-hit ski lodge operators in California. But they kept their fingers crossed.

The first flakes Monday night were greeted joyously by a recreational industry which has suffered shutdowns, layoffs and sharply dropping revenues because of one of the oddest winters in memory.

Vast areas of the mountains usually covered with white stuff at this season have been barren.

If it wasn't for artificial snow, used in two areas of the south and at Squaw Valley in the north, the ski lodge boys would have been deep in trouble.

Followed are made by the youth in their own privacy and their own way. Controls imposed by authoritative adults are a thing of the past. We may not like this, but it is a fact of life.

Kirkendall said parental supervision at the college level is gone, chaperones serve primarily an ornamental function, and college rules can, at the most, hamper and inconvenience rather than prevent.

### Kansas City Crash Fatal to Eight

By HUELL E. WARREN JR.

KANSAS CITY, Mo. (AP) — A sleek prop-jet airliner, coming in for a landing at Kansas City Municipal Airport, crashed into a dike at the end of a runway Tuesday night, killing all eight persons aboard.

The four-engine Continental Airlines Viscount had seats for 59 passengers but carried only five. All that was left was a mass of tangled wreckage that burned fiercely for 20 minutes.

Dead, in addition to the five passengers, were the three crew members. All eight bodies were recovered.

The victims included:

Capt. Joseph William Smith, 46, Dallas, Tex., the pilot.

First officer S. Clark George, 34, Dallas.

Hostess Ann Lewis, 26, daughter of Mr. and Mrs. R. C. Lewis, Abilene, Tex.

Passengers:

Mary Ann Stewart, 21, Kansas City. Miss Stewart was on the public relations staff of the People to People program. Her parents live in Wichita Falls, Tex.

Mrs. Elmer Russell, 70, Kansas City, Kan.

Her son, Richard, 32, Kansas City, Kan.

E.N. Johnson, Chicago Heights, Ill.

Nathan E. Garber, St. Louis.

R. O. Ziegler, assistant chief of air traffic for the Federal Aviation Agency here, said plane, Flight 280 from Midland, Tex., approached from north to south toward the business district, just across the Missouri River from the airport.

It made a normal approach until about 50 feet above the north end of the runway," Ziegler said, at the time it appeared to level off and climb slightly. It proceeded over the runway until it reached the south end of the field, when the nose appeared to drop sharply and the aircraft disappeared from view behind the dike.

Witnesses said the craft hit an earthen bunker and bounced over a 9-foot wire fence. It skidded up the slope of the dike and catapulted into undergrowth 150 yards from the river.

J. W. Matthews of Bonner Springs, Kan., said the plane was afire as it approached.

Matthews was on duty as a railroad foreman near the airport.

SALAD of beets, apple slices and hard-cooked eggs is served along with curry mayonnaise at Towpath Inn, Pennsylvania.

Teamwork makes home-dyeing patterned fabrics more fun. Final step: Stapling newly dyed fabric to screen frames.

### Rockefeller Attacks JFK Policies

By CHARLES STORER

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller attacked the public information policies of the Kennedy administration Tuesday night, demanding to know when the American people will be told what he called the true situation in Cuba.

The Republican governor told the New York State Publishers Association there is a philosophy, all too popular in high places, that the public cannot be told the whole truth about the international situation because the people might panic.

He called this concept fundamentally and dangerously wrong.

It was the second assault on the Democratic national administration in two days by Rockefeller, who is considered a likely GOP presidential nominee in next year's election.

The governor expressed deep concern Monday over President Kennedy's decision to halt under-

### Airman in Murder Case Is Freed

MOUNTAIN HOME, Idaho (AP)—Airman Gerald M. Anderson is a free man today after almost 10 months of confinement on charges of murder.

Now he wants out of the Air Force. His attorney has called for an investigation of the Air Force's treatment of Anderson, who was accused of killing the wife and son of a fellow airman.

In and out of military and civil jails since April, Anderson was released from the Mountain Home Air Force Base stockade Tuesday.

Another man confessed to the murders in November. Civil authorities accepted the confession and released Anderson but the Air Force promptly arrested him and announced it would try him for the crimes.

Anderson, 25, had no criticism of Air Force personnel except the

THE WEAKER WHAT?—Ear-muff weather in Des Moines, Iowa—seven below and three inches of snow—brought Drake University junior Joan Fausch, 20, out in what the girls wear anywhere, any time—shorts.

Office of Special Investigation agents who got him to sign a confession. But he said he hopes the Air Force will grant his request for an early discharge.

I have a lot of people to thank," said Anderson, but the biggest person I owe thanks to is God. I feel that without His help none of this would have been possible.

The Air Force returned Anderson to duty, assigning him to orderly room duty. Before his arrest he was in a plane refueling crew.

Anderson was arrested by the Air Force last April 11, the day after the bodies of Nancy J. Johnson, 22, and her son Danny, 2, were discovered in their home.

The Johnsons were neighbors of the Andersons. Mother and son had been stabbed and Mrs. Johnson had been raped.

Anderson signed a confession and was turned over to civil authorities. Later he repudiated the confession, saying it was obtained under duress.

In November, Theodore Thomas Dickie, 22, said in his jail cell at nearby Boise that he committed the double murder. Dickie was held for the rape slaying of a 10-year-old Boise girl.

The Air Force said Dickie's statement had many holes in it but earlier this month Dickie went before an Air Force hearing and reiterated his confession.

Dismissal of the charges against Anderson was ordered by Lt. Gen. Archie J. Old Jr., commander of the 15th Air Force at March Air Base, Calif.

Plant Is Started

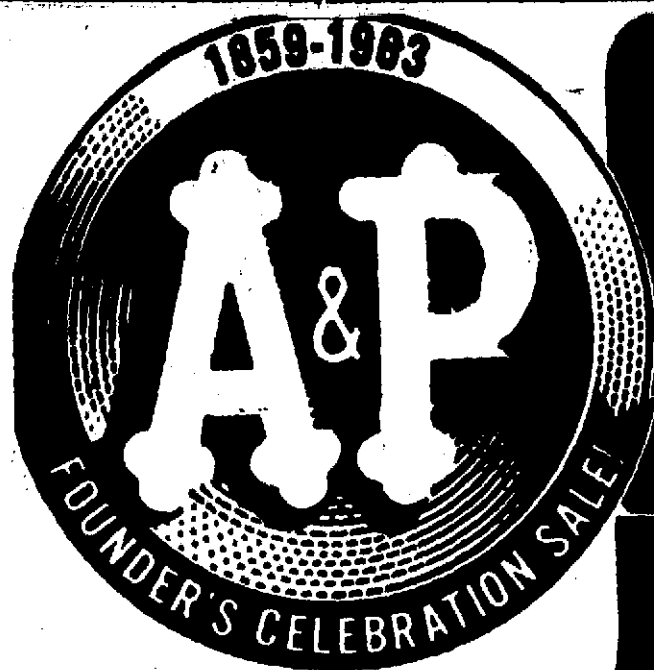

PARIS, Ark. (AP)—Ground was broken Tuesday for a 25,500 square foot plant to house facilities of Cloyes Gear Products, Inc., manufacturer of automotive timing gears. The firm will employ 60 to 70 persons. The construction is being financed by a \$265,000 bond issue approved last May 8 by voters.

This girl packs a tube of first-aid cream antiseptic in her weekend skiing kit. It will protect her skin against wind-burn, and be handy in case of minor scrapes her first time out on the slopes.

DR. PRUITT'S BODY  
By KENNETH O. HAY  
XXII

Dr. Pruitt's key to the nuclear lab suddenly assumed a great deal of importance to Matt Bacon. The killer had to use a key to unlock the rear door of the Nuclear Lab. Pruitt and Stroup came over his face, then he had keys. There were four keys besides these two, but the extras were not available to just anyone. Maintenance men were held strictly accountable for these. So course!

It was the night watchmen. But the murder occurred in the afternoon, when neither janitors nor night watchmen were at work in the nuclear lab, or any other building of the establishment.

Pruitt's keys were missing. If the murderer still carried them, they'd brand his guilt. But finding the keys carried by Pruitt would be a tough job. He couldn't search people willy-nilly. And the murderer certainly wouldn't permit Matt to go through his pockets, his possessions or his home to find evidence to convict him.

The possibility that the murderer might have gotten rid of the keys was not to be overlooked. In that case, Matt would be wasting his time looking for them unless he could establish that the murderer had once had them in his possession.

It was a little past five as Matt went to the Security Office. Already workers were crowding the Time Office, punching out and going home. Matt entered the office and the officer on duty looked up from his evening paper. Jack in?" Matt asked.

The security cop shook his head. No, he isn't, Matt Jack's checking the gates. Anything can do?"

No, I'll see him in the morning said Matt. He started to leave.

We got a phone call for you," said the security cop, leaning forward and picking up a note from his desk. Jack said it was a pal of yours. Fred Bernard. Works in the Appliance Division warehouse."

Matt recalled the beady-eyed little man he'd met the day before. Did Bernard say what he wanted?"

Nope. Wanted you to call him, but it's too late now. He leaves at five."

I'll see him tomorrow. Thanks."

Doubt if it was important," said the cop. Fred Bernard is an old buddy of ours too. He's one of the plant stoolies. Every big shop has one like him. Self appointed. You know the kind. One of them cock-robins that spills his guts to the boss. Or to us. Who's breaking what rules, who's goofing off, and so on. Nobody can get by with nothin' when he's within eye-shot. Maybe it's a way of calling attention to himself. A form of exhibitionism."

Matt grinned. You're a psychologist?"

The cop grinned back. Who can help but being one these days? Especially in a big brain factory like this research lab of one of the biggest. . .

Okay, I'm sold on Magnetic. You're all scientific, even the cops."

Now you're chirpin'. But stool pigeons are handy, especially in our work," He winked.

As he emerged from the Security office, he met Clifford Johnson coming briskly down the walk from the Appliance Building. Johnson's stylish top-coat was flapping in the breeze and he held

Wife Slaying  
in Plea for  
Freedom

COLUMBUS, Ohio (AP) — The immediate future of convicted wife-slayer Dr. Samuel H. Sheppard, 39, may be in the hands of Gov. James A. Rhodes.

Ohio's Pardon and Parole Commission heard a plea Tuesday for freedom for the former osteopath and promised a speedy recommendation for Gov. Rhodes—perhaps by the end of the week.

The prominent Bay Village, Ohio, doctor was convicted eight years ago in the bluejean slaying of his pregnant wife, Marilyn.

The commission is considering a possible recommendation to commute Dr. Sheppard's second-degree murder sentence to manslaughter. That would result in early parole.

The hearing, at which Sheppard did not appear, was highlighted by the introduction to the commission of Ariane Tebbenjohans, 33, of Dusseldorf, West Germany.

The divorcee, who has indicated a desire to marry Sheppard, sat quietly smoking during the almost two-hour session.

She disclosed later that she met Sheppard for the first time Friday when she visited him for 4 1/2 hours. Their interest in each other developed through correspondence begun in 1960, she said.

Correction Commissioner Maury C. Koblenz said he has rejected a request by the German woman to visit Sheppard again until we clarify her status in relation to him."

Sheppard was represented at the hearing by attorney F. Lee Bailey of Boston, Mass., who based his petition for parole on grounds that Sheppard has volunteered for medical experiments with cancer cells while in prison and performed a number of other medical services.

Sheppard presently is in Marion Correctional Institution, where he is teaching classes in medical related subjects. He has steadfastly maintained his innocence.

DOWN IN THE MOUTH—New switch on the old lion tamer circus act is the routine worked out by Jan Martin, 14, and the family's parakeet, in Concord, Calif.

IN A PINCH—Metallic brocade gown shown in New York has the pinched-in look.

3 Charged With  
Stealing Calf

MORRILTON, Ark. (AP)—Prosecutor Jeff Mobley filed charges Tuesday against three Little Rock men for theft of two calves—one an animal valued at \$1,000 and

owned by Winthrop Rockefeller. The Rockefeller-owned animal, a Santa Gertrudis, was killed, Conway County Sheriff Marlin Hawkins said. A Hereford calf belonging to a neighboring rancher was shot but survived.

Mobley said the three men were Herman Stone, 50; Clarence Stone, 49, a brother; and Billy Eugene Price, 23.

Pay Increase for  
Labor Head Refused

LITTLE ROCK (AP)—The Legislative Joint Budget Committee refused to act Tuesday on a letter from Gov. Orval E. Faubus requesting that the salary of Labor Commissioner Clarence R. Thornbrough be raised from \$8,400 to \$9,000 a year.

A motion to reopen the budget of the Labor Department failed. The Legislative Council, composed of the same members as the budget committee, criticized Thornbrough last month for speeches against the right to work law."

Faubus also asked that the salary of Bill Luney, assistant labor commissioner, be increased from \$7,500 to \$8,000. This request was referred for further study.

that money furnished by the state for teacher pay, goes to teachers. The Arkansas House passed HB 67, which would repeal Act 231 Tuesday.

Faubus said it is futile for the state to provide increases in public school aid with no assurance that the increases will reach classroom teachers.

He said We've got to have guarantees that state and local increases go to the teachers and not to bus drivers, gymnasiums and what not."

A Moderate  
Insurance  
Plan Due

By JOHN R. STARR

LITTLE ROCK (AP)—Key Arkansas legislators indicated a preference today for the more moderate of two administration proposals designed to force insurance companies to invest in Arkansas.

Several said flatly that a bill introduced in the Senate Tuesday by Sen. J. Lee Bearden of Leachville was too harsh.

Bearden's bill would require insurance companies to invest 75 per cent of the reserves on Arkansas policies within the state within three years or lose the right to do business in Arkansas.

Lawmakers seemed to prefer a bill by Woodruff County Rep. Jack Oakes, which would raise the premium tax for those companies which do not invest 50 per cent of Arkansas reserves in Arkansas.

Oakes said he had not had a chance to study Bearden's bill and did not want to comment on it.

But Cleveland County Rep. Raymond May said the Bearden measure was too harsh and added, "The theory may be good, but I don't know whether requiring this investment would be worthwhile."

Perry County Rep. Paul Van Dalsen said present Texas law is similar to the Bearden bill, but he indicated a preference for the

HEART-SHAPED vanilla fresh strawberry Russe cake is a glamorous two-in-one dessert for the Valentine's Day party.

Oakes measure and predicted it would pass the House.

I thought the administration and the insurance companies had got together and compromised on 50 per cent," Van Dalsen said. Now I'll have to study the Bearden bill and decide what it means."

Sen. E. L. Mostey of Camden, an insurance man, said he had not studied either bill, but that he would want to know the economic impact on insurance companies before reaching a decision.

Several legislators said passage of a compulsory investment law in Arkansas probably would lead to similar legislation in other states with a resulting harm to

Arkansas companies doing business outside the state.

Rep. Hardy Croxton of Benton County was one of these. Such retaliations could wipe out any gain we might make," he said. Various industry groups which have studied this kind of legislation say it is not in the best interest of the state considering it."

Most of the lawmakers liked the idea of perhaps mustering additional investment capital for Arkansas, but they weren't wholly sold on the method.

Izard County Rep. John Miller, who also deals in insurance, said he would favor the Oakes bill because it gives insurance com-

Senate to Probe

FORT WORTH, Tex. (AP)—Inquiry into the multi-billion dollar TFX fighter plane contract was opened Tuesday by a Senate investigating team headed by Jerome Adlerman, chief counsel of the Senate Investigating Subcommittee.

Sen. John L. McClellan, D-Ark., chairman of the Senate Investigations Subcommittee, said late last year he had assigned an aide to look into the awarding of the contract, which went to General Dynamics Corporation.

Sen. Henry Jackson, D-Wash., and others have expressed dissatisfaction over the choice of the contractor.

Members of the investigating team would not say what went on in their talk with General Dynamics officials, but it was understood the investigators were fact-finding facts for a study of the awarding of the contract.

panies the option of investing in Arkansas or having the premium tax raised. He objected to the Bearden bill provision which would revoke a company's right to operate in the state.

Pulaski County Rep. Jim Brandon said he had not found a great deal of sentiment among insurance men either for or against the proposal, but he said it was his recollection that the Arkansas legislature had defeated such legislation on 19 occasions in the past.

There are six insurance men in the House and three in the state Senate.

Clemson  
Is Moving  
Peacefully

By BEN A. BROWN

CLEMSON, S.C. (AP) — Clemson College moved peacefully through South Carolina's first public school integration Tuesday but a college official says I am sure we plan to continue security for a while."

Joe Sherman, Clemson public relations chief, said by security he meant an addition to the usual complement of officers assigned to the campus.

Meanwhile, Harvey B. Gantt, 20, the first Negro student at Clemson, signed up for his classes today to complete his enrollment.

Gantt, a transfer student from Iowa State University, went through a one-day orientation program for new students without incident Tuesday a spokesman said.

Gantt's second night on campus was as uneventful as the first. A tight network of state highway patrolmen controlled the campus, letting only authorized persons on to the grounds.

As Gantt moved about the campus he generally walked alone. An occasional student nodded or spoke to him.

Gantt said of his first full day on campus, I don't see how it could be better."

Gov. Donald Russell asked the legislature for a million dollars to

Missionary  
Band's Plan  
Is Halted

LOS ANGELES (AP) — The Coast Guard has halted a missionary band's plan to sail to Haiti by declaring its 101-foot home-made boat unseaworthy.

But the Rev. Howard A. Smith, leader of the crew of nine adults and three children, said he'll appeal Tuesday's ruling to higher Coast Guard authorities.

Smith, 51, is pastor of the Calvary Church of the Full Gospel, a 250-member offshoot of the late Aimee Semple McPherson's Four-square Gospel organization, at Wilmington, Calif.

I made a trip to Haiti on a missionary venture," he told a reporter, and the outcome was a plan to build a boat and load it with beds, clothing, machinery, etc., to establish training centers.

Smith and members of his congregation, starting 21 months ago, built the vessel. Cash donations of \$25,000 went for cedar planking, marine plywood, two diesel engines and other materials and equipment.

Smith said it looks like a glorified PT boat."

Coast Guard officers went aboard Tuesday and cited Smith for inadequate and unsatisfactory lifesaving and fire-fighting equipment."

Europe Getting  
More Ice, Snow

LONDON (AP) — Southern and Eastern Europe took another battering today from snow, ice and cold winds. At least 430 were dead as a result of Europe's worst winter in decades.

New snowfalls in Italy isolated villages in the Apennines. Along the Italian Riviera there were calm seas and clear skies. But snow fell on the isle of Capri for the first time in a decade.

Central and northern Greece got more snow. The Greek air force dropped food and other supplies to scores of marooned mountain villages.

New snowfalls also hit the northern provinces of Yugoslavia. The death toll there was 44 so far.

Britain continued to thaw out slowly from the deep snows that covered it for five weeks. Light snow fell over scattered areas. Counties around London were shrouded in fog.

Pack ice drifted out of the Thames to menace shipping along the South Coast.

Would Protect  
Teachers' Pay

LITTLE ROCK (AP) — Gov. Orval E. Faubus said Tuesday the legislature must protect teacher salaries before he will accept repeal of Act 231, designed to insure

set up a fund for tuition grants to private schools. He did not specify which private schools would be included and made no mention of segregation.

# Highway Set for Bids on Seven Jobs

LITTLE ROCK (AP)—The Arkansas Highway Commission will open bids Feb. 20 on seven projects to cost an estimated total of \$7.5 million.

Included in the bid items are a new bridge over the Ouachita River at Pencil Bluff in Montgomery County and three projects on Interstate 40 in central Arkansas.

The new Ouachita River Bridge will cross the stream from Highway 270 (Mount Ida Road) 2.9 miles southeast of Pencil Bluff. The bridge will be 582 feet long and will have three-quarter mile approaches.

The interstate highway projects include:

Pulaski County: Construction of 6.5 miles of Interstate 40 near the Lonoke County line, construction of the Burns Park access road in Little Rock and grading and drainage structures on 5.4 miles of the Little Rock-Fort Smith section of the highway from near the Mayflower city southeastward (Pulaski and Faulkner counties).

Other projects include:

Pulaski: Widening and resurfacing of Highway 5 in North Little Rock.

Grant, Saline and Pulaski: Surfacing of 7.5 miles of Highway 65 near the Grant-Pulaski county lines. This is a section of the new Little Rock-Pine Bluff road.

Lonoke: Grading and drainage structures on 10.4 miles of Interstate 40 from near the Highway 31 interchange north of Lonoke eastward to the Lonoke-Prairie County line.

**PIE-IN-THE-FACE ROLE**—In his first try at slapstick comedy, Rock Hudson, in Howard Hawks' "Man's Favorite Sport?" at Universal, proves beyond a doubt that as an outdoor sportsman, left, he's got about as much talent as King Henry VIII. Dolls Paula Prentiss and Maria Perschy, right, are with Rock in this throwback to the days of the Keystone Cops and Mack Sennett's bathing beauties.

## Seeks Territory

LITTLE ROCK (AP)—A request for additional territory, including authority to take over the highest telephone lines in the state, was given the state Public Service Commission Tuesday by the Western Arkansas Telephone Co. of Russellville. The firm is seeking more territory in Logan and Yell counties, including Mt. Magazine, the highest mountain in the state, at 2,890 feet. It now serves all of Pope and Johnson counties, and parts of Logan, Sebastian, Franklin and Yell counties. The Mt. Magazine lines serve the Forestry Service tower. The firm now services the lines under contract.

## Suit Is Filed

NEW YORK (AP)—Actress Linda Christian—contending the Hotel Plaza failed to inform her it had a safe for valuables—has filed a \$135,000 suit against the hotel for jewelry stolen from her room last Oct. 25.

Miss Christian, wife of actor Edmund Purdom, said a wedding ring from her late husband, Tyrone Power, was among the 26 pieces of jewelry taken.

## Whaler Caught

SYDNEY, Australia (AP)—Two fishermen caught a 10-foot bronze whaler shark Tuesday night. It is believed to be the one that killed actress Marcia Hathaway, 32, Monday.

The shark was hooked 100 yards from the point at which the actress was attacked in Sydney harbor. Teeth fragments taken from Miss Hathaway's leg indicated she was killed by a bronze whaler.

## Leave a Few Bucks

CHATTANOOGA, Tenn. (AP)—The sign on the safe read: "There's no money in this safe."

Burglars apparently believed the sign and made no effort to open the safe, a Chattanooga contractor told police, but they made off with \$6,500 worth of office machines and left a note.

Leave a few dollars next time.

An ordinary lead pencil contains at least 25 ingredients, including wax from Brazil, clay from England, gum from Iran, zinc from New Jersey, graphite from Mexico or Ceylon and sperm whale oil from the South Pacific.

## Sparkman Youth Wins State FFA Forestry-Citizenship Title

Daniel Elvis Givens, winner of the top award in the FFA Forestry-Citizenship Awards Program, discusses "sawmilling" with Dallas County Forest Queen Joan Brant. Young Givens, who works at his family's sawmill, follows excellent forest management practices. The Dallas County youth received the top prize in the annual competition, an \$800 college scholarship, at the FFA Awards Banquet in Little Rock, January 29. The state FFA Forestry-Citizenship Awards Program is sponsored by the Crossett Division of the Georgia-Pacific Corporation.

**MEET AUNT WIN**—Zippy Joan Blondell takes on the role of Aunt Win, a new character added to television's hit series, "The Real McCoys." Here, she is shown with Walter Brennan, star of the show.

## DOROTHY DIX

HUSBAND BITTEN BY JEALOUSY

By HELEN WORDEN ERSKINE

Dear Helen: My husband and I were together 38 years then one day a heart attack took him from me. I'm haunted by that fact that I might have done more to make his married life happier for he was a dear, sweet, good man. If wives would just wake up before it's too late and make things pleasant at home, there'd be fewer divorces. The man isn't always to blame. Would that I could live my life over and devote it to making my husband happier. —Bluer than Blue

Dear Helen: I am a 15-year-old girl who necks, pels and does things I shouldn't. My boy friend is 20. Knowing I'm poor, he wants to give me money. My grandma is the only person in whom I can confide and she wouldn't understand about him wanting to help me. Should I accept the money? —Confused Teenager

## 3 Miners Feared Dead in Fire

BENTON, Ill. (AP)—Three miners were feared killed today in a fire, smoldering in one of Illinois' newest coal mines, swept out of control. Four other miners were hospitalized, suffering from smoke inhalation.

A fire broke out Tuesday in the Freeman Coal Co.'s Orient No. 5 mine near Benton. Nearly all 70 men in the mine were evacuated. A few miners remained 640 feet underground to fight the blaze, which appeared to have been brought under control.

However, the fire which had spread about 400 feet along the mine's lowermost tunnel, early today spread to other sections, feeding on coal residue.

Mine officials said three miners among the crews fighting the fire were missing and presumed dead. About 24 special mine rescue workers were sent to the mine to erect six wood and concrete walls

to contain the fire. The fire which had spread about 400 feet along the mine's lowermost tunnel, early today spread to other sections, feeding on coal residue.

## Placed 6,026 in Arkansas Jobs

LITTLE ROCK (AP)—The state Employment Security Division announced today that it placed 6,026 persons in gainful employment in December and received 10,528 at various points to cut off the air supply and smother the fire.

The mine, which employs about 250 men in this Southern Illinois city of about 7,500 population, started production in 1961.

new applications for work. J. L. Bland, ESD administrator, said there were 16,469 persons unemployed in the state at the end of December and filing claims for unemployment insurance.

This is a decrease of 18.5 per cent from December 1961 when 19,035 claimed benefits.
